I'm running for State Rep because I believe we need a new kind of politics focused on what we have in common: **we love this community.**

We need solutions, so let's keep talking to each other even when we disagree. After all, we're not strangers, we're neighbors.

Let's come together and fight for our shoreline, our schools, our families, our health care, our businesses and our future.

TINA SPEARS is an advocate and a mom who's lived in Charlestown for 30 years. As a leader for people with disabilities, she helped win paid family leave and wage increases for workers across the state. Now she's running a people-powered campaign to be our next State Rep. Let's make sure the community we love has a strong leader at the State House.

TINA WILL FIGHT FOR:

- An Affordable Future for the People of RI
- Strong Public Schools
- A Sustainable Environment & Action on Climate
- Access to Health Care including Reproductive Care
- Support Services for Elders to Age with Dignity
